WHAT IS HAPPENING

Metrolinx will be constructing temporary concrete pads for three bus stops and then relocating the bus stops/shelters on Finch Avenue East between October 28 and November 29, 2024. To facilitate this work, lane closures will occur during this time along Finch Avenue East between Milliken Boulevard and Baylawn Drive at three locations (see Figure 1). Activities associated with this construction include the placement of concrete for the bus stop pads, surface preparation, and installation works.

The temporary bus pad construction will occur from October 28 to November 8, and the bus stops will then be relocated beginning on November 11, with relocation work finished by November 29.

These activities are part of preparatory works for construction at the station site later in 2025.

PROJECT OVERVIEW

SmartTrack is bringing five new GO stations to Toronto, leveraging roughly 40 km of Metrolinx's pre-existing GO rail corridors within Toronto. The program is a collaboration between the Province of Ontario, City of Toronto, and Metrolinx that will transform heavy rail infrastructure in Toronto from a regional commuter service into an urban rapid transit network, expanding your local network, creating new possibilities, and bringing you improved access to locations across the city.

SmartTrack Finch-Kennedy GO Station will be located on Finch Avenue East between Milliken Boulevard and Midland Ave on the Stouffville line.

WHAT TO EXPECT

- Crews will be on site at Finch Avenue East to conduct works on the temporary bus stop pads.
- Activities include:
 - The placement of concrete for the bus stop pads.
 - Surface preparation for the concrete placement, including the installation of a subbase per bus stop.
 - Installation of formwork and rebar for the bus pads for structural integrity.

HOURS OF WORK

- Work will occur during the day between the hours of 7 a.m. and 5 p.m. from October 28 to November 29, 2024.
- Overnight work is sometimes required for construction activities. Any planned overnight work will be communicated if the need arises.

LOCATION OF WORK

- Finch Avenue East between Milliken Boulevard and Baylawn Drive.

PEDESTRIAN DETAILS

- There will be no impacts to pedestrians, cyclists, or private properties.

TRAFFIC DETAILS

- The lane adjacent to the work zone will be closed for the duration of the work.
- A traffic management plan will be implemented, and necessary signage will be put in place.

TRANSIT INFORMATION

- Transit routes will not be impacted.
- The TTC will be notified of the relocation of the bus stops to the new location.

COMMUNITY ENGAGEMENT

- Metrolinx has a dedicated community engagement team in place that works with residents and businesses in the Toronto East area.
- If you have any questions, please contact us using the information provided below.
